

Enduracor™ Digital Print Warranty

1-YEAR RESIDENTIAL / COMMERCIAL LIMITED WARRANTY

WARRANTY COVERAGE

Artistic Finishes, Inc™ warrants to the original purchaser that Artistic Finishes' **Enduracor™ digital print moldings** will be free of finishing defects in materials and workmanship; the products are not warranted against excessive force, heavy foot traffic or accidental breakage. Artistic Finishes warrants that its custom, factory applied digital print will not chip, peel or wear through to the core, under conditions of normal residential use, for the period of one full year following installation. This warranty applies to the original purchaser of Artistic Finishes' factory finished digital print moldings, for residential use, for the duration of the stated warranty period.

OBLIGATIONS UNDER WARRANTY

If Artistic Finishes' factory applied digital print chips, peels or wears through to the core during the warranty period under conditions of normal light industrial or residential use, Artistic Finishes will at its discretion, 1) replace the product at no cost to the consumer, or 2) refund the purchase price of damaged product.

This warranty does not cover consequential damages (that is, the cost of repairing or replacing anything other than the product, special, indirect or incidental damages, your loss of time, loss of use, inconvenience, telephone charges, or the like related to the warranty claim).

We do not accept returns on product already installed. No reimbursement will be given on freight/shipping costs from the original order. No returns will be accepted without prior written authorization from Artistic Finishes' Returns Department. CASH REFUNDS WILL NOT BE GIVEN.

This warranty is made in lieu of and excludes any other express or implied warranty of any type or kind, particularly any implied warranties of merchantability or fitness for a particular purpose, and all other express or implied representations and warranties are hereby disclaimed.

PROPER CARE

Artistic Finishes' digital print moldings should be cleaned using the tips below:

- Vacuum with an attached hose focusing on the edges where dirt and dust can hide
- Use a damp mop with a micro plus mop head or a cloth and warm water.

If required for surface protection due to painting or repairs, Artistic Finishes recommends the use of **ONLY 3M's #2090 Blue tape** when coming in contact with any of Artistic Finishes prefinished products. Should the use of a tape be required during or after the installation of any Artistic Finishes product, the following guidelines must be met:

- Make sure that the product is clean and free of any debris. Clean any applicable surface using only water and a damp micro plus mop head or terry cloth fabric.
- Apply tape #2090 (3M Blue tape) only where needed.
- Remove all tape as quickly as possible. Try not to exceed 12 hours of contact with any Artistic Finishes product. Lengthy applications can and will break down the chemical bond of the finish causing excessive finish failure.
- All tape – and products should be installed in a controlled temperature and humidity range. Less than 70 degrees Fahrenheit and relative humidity between 40 to 60 %.

No attempt should be made to sand or recoat this factory product. Accordingly, any sanding, top-coating, recoating, or attempted refinishing of Artistic Finishes' factory-applied digital print moldings will invalidate this warranty.

WARRANTY EXCLUSIONS

- **Installed Moldings** - It is the responsibility of the installer to detect any finish defects before installation begins of any Artistic Finishes' digital print products. If any such objections in finish are detected, the installer must not install the product. **Installed product will not be eligible for a warranty claim.**
- **Damage from Improper Installation** - **DO NOT** nail or screw Enduracor digital print moldings when installing. Artistic Finishes recommends using Loba Wakol's MS 245 adhesive for installation. **DO NOT** keep any applied tape for holding in place during glue application for greater than 24 hours. See PROPER CARE above. Accidents, abuse, cleated shoes, spiked heels, failure to use protective caps or pads under furniture legs or wheels, scratches and dents, or any circumstance causing abnormal wear voids this warranty.
